Wireless Guard Tour Partol Systems With Date Downloading

GTP-6200F

Wireless via Socket Data downloader

(Need additional purchase)

Features

> Rubber coating and strong metal tank, completely water-resistant

> Data downloader communication, download data without cable

> Non-contact scanning, sound and flash operation prompt

> CR123A battery-powered can work around 1 year

Specifications

Reading Method	RFID auto-induction reader	Working temperature	-20℃ to 70℃
Storage capacity	8,000pcs	Working humidity	0 to 95%
Reading response	＜0.2s	Standby power consumption	100UA
Communication	Wireless communication	Work power consumption	8mA
Direction	LED+Buzzer beeps	Battery life	continuous use around one year
Dimension	142mm x 32mm x 44mm	Battery	3.0V CR123A lithium battery
Net weight	150g	Standardized accessories	Leather case
Baud rate	576000Bps
